Mini shelter builder challenge

Plan, build, test and improve your woodland creation.

MISSION CHECKLIST

- [ ] I chose a safe building spot
- [ ] I gathered only fallen materials
- [ ] I made a miniature A-frame
- [ ] I covered the gaps with leaves
- [ ] I tested the structure gently
- [ ] I improved one part of my design

DESIGN YOUR SHELTER

Sketch your A-frame above. Label where your ridge stick, side twigs and leafy roof will go.

How well did it work?

Every good shelter builder learns by testing.

DID IT STAND UP?

[ ] Yes [ ] Almost [ ] Not yet

WHAT DID YOU USE?

Write down three natural materials.

WHAT WORKED BEST?

What made your shelter strong?

WHAT WOULD YOU CHANGE?

How could you improve it next time?

WELL DONE, MUDDY DRAGON SHELTER BUILDER! Small shelters are for learning. They are not safe places for people to climb into.
