# Wildlife spotting checklist

Eight clues to find on a woodland adventure.

WOODLAND FLOOR: LOOK FOR FEEDING CLUES

MUDDY TRACKS: WHO WAS HERE?

You need not see an animal to find evidence it has passed by. Tick the clues you discover — and leave everything undisturbed.

- [ ] **Footprints**
  Paw marks, hoof prints or bird tracks.
- [ ] **Birdsong**
  Pause and hear two different calls.
- [ ] **A feather**
  See a feather lying on the ground.
- [ ] **Signs of feeding**
  Look at cones, nuts or nibbled plants.
- [ ] **A squirrel clue**
  Spot a squirrel or a chewed cone.
- [ ] **A minibeast**
  Watch a beetle, ant or other insect.
- [ ] **A wildlife pathway**
  Look for a narrow trail in undergrowth.
- [ ] **An animal home**
  Observe a nest, den or hole from afar.

**BONUS: Stand quietly for 30 seconds. What can you hear?**

Stay with an adult. Never disturb wildlife, nests, droppings or animal homes.
